

Driving Innovation and Excellence: Enhancing EV Charging Infrastructure on BaseN

InterControl – A Nordic specialist in advanced charging and energy infrastructure solutions

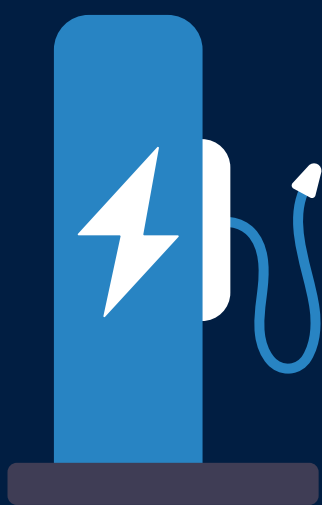

Cutting-Edge Technology

BaseN is a global leading provider of the Digital Twin and Internet of Things BaseN Platform. We provide innovative technology solutions to enable situational awareness gained through the virtual replicas of physical assets, like the EV charging infrastructure in this case. BaseN Platform monitors and manages these assets for enhanced efficiency.

Proven Success

InterControl, a specialist in EV charging solutions, has chosen BaseN Platform to enhance the performance and reliability of its Latinki 11 series of Vehicle to Grid (V2G) bidirectional DC chargers.

Exceptional Capabilities

Working with BaseN can lead to remarkable advancements and innovations. InterControl's Latinki 11 chargers revolutionize the EV charging industry with exceptional capabilities and forward-thinking design.

Remote Monitoring and Management

By leveraging BaseN Platform for situational awareness, InterControl can remotely monitor and manage the charging infrastructure. This means they can keep an eye on their assets from a distance, ensuring optimal functionality and taking proactive steps for maintenance.

Innovating Together: A Commitment to Excellence

No matter what products or machines, their digital twins can live on BaseN Platform – for their entire lifecycle. With BaseN, customers can leverage advanced technology, enhance operations, and deliver exceptional customer experiences, ultimately driving innovation and excellence in their industry.

Optimized Operations

BaseN Platform allows for real-time insights into performance and status, enabling proactive maintenance and efficient operations. Working with BaseN leads to smoother and more efficient operations.

Customer Experience

By using BaseN Platform, InterControl aims to deliver an outstanding charging experience for EV owners. With BaseN, it is easy to improve end-user experiences, and by that enhancing overall customer satisfaction.

Innovation and Excellence

The collaboration between BaseN and InterControl showcases a commitment to innovation and excellence.
